**Princess Alice
Hospice**

We really look forward to welcoming you!

As a loyal customer we want you to be the **first** to know about new treatments. You'll also receive a **Goody Bag** and the **chance to win fabulous raffle prizes** to the value of **£2,000.00**.

Now **you** can find the beauty within with our very latest non-invasive anti-ageing and lifting treatments for face and body. These brand new exciting, serious, cutting edge, treatments are designed to give your circulation a work out, and lift and tighten your skin on the face and body.

NEW! A UK First! The Brrrr...illiant **Cryo Ice Facial**

Fresh from frosty Switzerland, this facial combines plant stem cells with sub-zero temperatures to tighten and rejuvenate the skin instantly. This can also be used on the décolleté, hands, saggy arms etc... (*Greta Garbo was a great believer in ice as an anti-ageing commodity*).

FREE TRIAL worth £95

NEW! Another UK First! **The TA65 Facial**

This is *Nobel prize-winning technology* encompassing immortal cell theory for anti-cellular ageing and optimal skin rejuvenation.

FREE TRIAL worth £250

NEW! For Body Contouring **CryoContoura**

A non-surgical, non-invasive method of destroying fat cells without damaging the skin or other tissue. The unique laser/cryolipolysis combination starts getting results straight away!

FREE TRIAL worth £300

NEW! **CryoPen**

To remove unsightly skin tags, warts and age spots for that perfect finish.

FREE TRIAL worth £75

NEW! Tackle Cellulite head on with **BodyShock**

This is not a case of a one size fits all approach – we will prescribe *individualised* and *personalised programmes* for you depending on the type of cellulite you have. This unique approach combines a body peel, a serum combined with a highly active solution to decrease the number and size of fat cells, and completed with a mask and firming gel to boost circulation and lymphatic drainage. **Lipotripsy** acoustic wave shock therapy follows for really dramatic results!

FREE TRIAL worth £220

Demonstrations

Enerjet – Kinetic Face Lift

We will demonstrate **Enerjet**, using kinetic energy for effective non-surgical face lifting - a real *WOW* treatment not to be missed!

BRAND NEW

Hair Restoration – 3 cutting-edge solutions that target hair loss conditions

NEW! AQ Advanced Hair Complex is a natural growth factor serum that targets conditions of thinning hair, hardening of the scalp and weakening of the hair follicles. The formula aids to deliver nutrition to the scalp, which increases circulation around the hair shaft and encourages the restoration of damaged hair follicles. It is safe for both men and women with no 'drug like' or hormonal side effects.

PRP Mesotherapy to address hair loss will be demonstrated by *Sharon*, our *Medical Aesthetics Practitioner*. The beauty of mesotherapy is that it brings just the right materials to the exact place where it is needed (around the hair follicle) so that the hair follicle can grow and survive. PRP has an abundance of growth factors that further help encourage hair growth.

SmartLux advanced photo activation technology to enhance the above procedures, or as a stand-alone hair rejuvenation treatment. Specific light wave-lengths are designed to stimulate the microcirculation giving necessary nourishment to the hair follicles and providing anti-inflammatory benefits.

FREE TRIAL

Whilst you are here why not try some of our other award winning treatments!

FREE TRIAL
worth £250

FREE TRIAL
worth £200

FREE TRIAL
worth £350

Exilis Elite – skin tightening and fat reduction of face and body

IMPORTANT NEWS!

NEW Invivo – Beauty from the Inside Out

A new approach to healthcare is emerging through testing your DNA and hormones to design a bespoke nutritional programme. This looks at the underlying causes of ageing and skin dysfunction rather than symptoms.

A saliva or blood test provides genetic and hormone information to ensure that you are getting the correct supplements for your individual requirements.

Knowing what your body needs allows our highly qualified nutritionist to recommend a personalised and individual programme to slow the ageing process and is a huge advancement in the efforts to prolong youth and longevity.

At 7.00pm Humphrey Bacchus, director of Invivo Clinical, and May Simpkin MSc, Nutritional Consultant, will give a short talk on these developments and what this means to you. They will also be available for 10 minute introductory consultations throughout the evening.
